

## **Clark Forklift**

At this time, there are at least 350,000 Clark forklifts performing globally, and more than 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive makes of lift trucks, with parts covering more than 120,000 specialized items for all of its automated equipment. Your local Clark Dealer is your total source for availability of all your components needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Globally, Clark has one of the most impressive supplier support networks. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the operator restraint system. This exceptional dedication to safety is currently a customary feature on every forklift.

Clark has a unrelenting mission to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a dominant market position.

### **Resource Efficient Manufacturing**

Clark has preferred the very economical and advantageous system of "Lean Production" for its assembly facilities and application of resources. This structure was established to acknowledge the most effective approaches of manufacturing plant stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

### **Engine Design**

Clark's product engineers and suppliers communicate together to enhance the efficiency and brilliance of their merchandise while minimizing expenses. The new value engineering agenda combines innovative product improvement and provides improved customer support and service within the industry.
